Collagen Peptides

A milestone in caring for the beauty and health of skin, hair, nails and joints

20 sticks · 9,5 g

Pipe-cherry flavored

Collagen peptides

Are the smallest particles of collagen that are digested much faster and provide considerably higher than regular hydrolyzed collagen.

THE ADVANCED FORMULA

of the legendary product line

- firmness and elasticity of the skin,
- supporting the condition of skin and nails,
- supporting joint health and improving joint mobility
- improving capsular tone,
- enhancing the effects of beauty treatments,
- quick recovery after aesthetic cosmetic surgeries and beauty procedures,
- reducing the appearance of varicose veins

ARGUMENTS

In favor of Collagen Peptides

TR THE "LOW-CARBOHYDRATE FORMULA" for the Hollywood Diet

Contains only about 1.5 g of carbohydrates

PROGRAMTIN COMPLEX

IS the Secret to beautiful, strong nails and smooth skin.

It prevents brittleness of nails, softens cuticles and cuticles and soothes skin.

SUGAR FREE

Sweetener natural sweetners for those who control their sweet tooth.

Cherry-aid, sorbitol

Erythritol, Stevia extract

MSM BIOAVAILABILITY

For those who need quick results.

MSM + Collagen hydrolysate with peptides is incorporated into the microbiome within 12 hours

Collagen Peptides Pipe-cherry flavored

Collagen Peptides Lemon or orange

ENRICHED

ProKeratin Complex, which contains:

Collagen peptides — Hydrolyzed collagen broken down to low molecular weight peptides for the quickest possible digestion.

The bioactive vitamin C formula is taken from nature's formula

Stimulates collagen and hyaluronic acid production for beautiful and youthful skin.

Lysine amino acid

Plays a key role in the formation of keratin - an important component of the firmness and elasticity of skin, hair, nails.

Organic sulfur is a "beauty mineral"

Promotes the formation of connective tissue, improves hair and nails health. Slows down the aging process, restores skin elasticity and firmness.

What's different about it?

Collagen Formula	Collagen Peptides
1 serving	1 serving

Collagen

5,000 mg of hydrolyzed collagen: types I and III.

5,000 mg of collagen type I and II peptides

Accelerated and most complete assimilation - 95% is assimilated in 12 hours.

Collagen peptides are the smallest particles and their smaller molecular weight. The smaller the molecular weight, the faster they are digested.

Beauty ingredients

- **250 mg of organic sulfur** (methylsulfonylmethane)
- **50 mg of vitamin C** (ascorbic acid, ascorbic acid)

PROGRAMTIN COMPLEX:
- **50 mg of L-cysteine amino acid**
- **50 mg of organic sulfur** (methyl sulfonylmethane)
- **10 mg of vitamin B** (biotin, hydrochloride, L-ascorbic acid)

Sorbitol, cherry aid

Erythritol, stevia extracts

All for the production of keratin - the most structured protein for skin, hair, nails

Carbohydrates

Fructose, cherry juice, maltodextrin

Sorbitol, cherry aid

Erythritol, stevia extracts

CPPC per 1 serving 9,5 g:
- 4,5 g of protein
- 0,5 g of carbohydrates
- 0,5 g of fats
- 0 g of dietary fiber
- 36 kcal

CPPC per 1 serving 9,5 g:
- 4,5 g of protein
- 0,5 g of carbohydrates
- 0,5 g of carbohydrates
- 0,5 g of fats
- 2,5 g of dietary fiber
- 36 kcal
- 0% sugar

Collagen Peptides Lemon or orange Pipe-cherry flavored

Rich amino acid composition

100 g of collagen peptides contain*	
lysine + hydroxylysine	5,7 g
phenylalanine	3,0 g
leucine	3,0 g
valine	2,8 g
methionine	0,5 g
cystine	0,1 g
tyrosine	0,03 g
proline	14,3 g
alanine	9,2 g
glycine	19 g
arginine	7,8 g
histidine	0,8 g
glutamic acid	10,3 g
aspartic acid	6,7 g
asparagine acid	3,9 g
asparagine	12,3 g

* Data are given for two collagen peptides.

19 amino acids for full collagen production

Method of use

- 1-2 sticks per day with meals.
- Dissolve 1 stick in 150-200 ml of water or other beverage.
- The duration of intake is 10-20 days.

It's a perfect match

Building material for tissue renewal of joints, blood vessels and skin, hair and nails.

SOS support:
- for sports, ligament and joint injury
- with increased physical activity
- for speedy recovery after cosmetic procedures

Together they provide:

- fast results due to high bioconvertibility;
- synergistic effect due to double processes;
- increased support for joints, vessels, and connective tissues;
- rapid recovery after cosmetic treatments.

Application scheme

MORNING: 1 stick of **Collagen Peptides** + 1-2 capsules of **Marine Collagen.**

Lunch or evening: 1 stick of **Collagen Peptides** (one or two) 15-20 minutes before meals.

Contraindications: individual intolerance to the components, pregnancy, breast-feeding.
