

Greenflash®

VITAMIN K2+D3

K2 + D3 —
is the best team of helper vitamins for
the absorption of calcium,
phosphorus, and other minerals.

VITAMIN K2+D3 IS THE PERFECT SOLUTION:

Ca

Mg

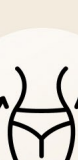

in case of brittle nails and dull
hair, it will give them back their
strength and shine,

after injuries and fractures,
cosmetic procedures and plastic
surgeries, it will help to quickly
recover,

when taking medicine, it will
strengthen the body's defenses
against colds and viruses,

in problem skin, it will reduce
inflammation,

in case of reproductive disorders,
it helps to restore reproductive
function,

when dieting, it will help control
your appetite and prevent
breakdowns,

if you are lactose intolerant and
follow a vegetarian diet, it will make
up for vitamin deficiencies.

BIOAVAILABLE VITAMINS IN ACTIVE FORMS

Microencapsulated cholecalciferol (D3) is a
vitamin created with a special technology
that helps it be absorbed in maximum
concentration.

Natural vitamin K2 in the form of
menaquinone-7 is easily absorbed and activates
proteins that help calcium and other minerals
accumulate in bones and tissues rather than on
vascular walls.

The effectiveness of vitamins D3 and K2 in the
form of menaquinone-7 is clinically proven.

ONE CAPSULE OF K2+D3 CONTAINS:

Vitamin D3 (cholecalciferol)

600 IU

% of adequate intake/
recommended daily
intake

at least 300% **

Vitamin K2 (menaquinone-7)

240 µg

% of adequate intake/
recommended daily
intake

at least 200% **

USE IN COMBINATION
