be Loved body

Ensure yourself
a *smart*-care for beauty
and youthful skin
preservation.

with metabiotics

The skin –

is the largest organ of our body.
A strong shield between a person's inner world and external factors.

Our skin takes care of us:

- Detoxify
- Protects against external influences
- Regulates heat exchange

Body skin renews slower than facial skin

A full update takes 30-40 days

Exclusive to NL

Development of Russian scientists

Highly effective formulas

42 active ingredients

SOFTENING HAND CREAM
be Loved body

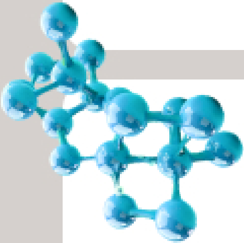
Metabiotics

- ✓ Restore the skin microbiome
- ✓ Stimulate skin immunity
- ✓ Activate skin repair mechanisms

Hydrolats

- Have the power of essential oils
- Have anti-inflammatory effects
- Prevent premature ageing



Trehalose

- Fills and seals moisture in skin cells
- Prevents ageing

Plant extracts

of wheat germ, calendula, chamomile, birch

- ✓ Reduce inflammation
- ✓ Reduce skin dryness
- ✓ Improve elasticity and increase turgor

Hydrolipid collagen, hyaluronic acid

- ✓ Improve skin firmness and elasticity
- ✓ Thicken the intercellular matrix

- Provide powerful regeneration and moisturisation

Valuable oils

shea butter, almond, grape seed, coconut, argan, panthenol

- Fill each cell with strength
- Make the skin silky
- Protect it from aggressive factors

Meet the new line

be Loved body

Delicate cleansing deep moisturising, activation of regeneration, rejuvenation and skin protection mechanisms.
